ELEMENTS®
DECKING

TAMKO®
BUILDING PRODUCTS

Elements® composite decking provides a beautiful and durable option for enhancing your enjoyment of outdoor living spaces. It is a quality extruded decking material that offers the look of wood, while enhancing performance and providing low maintenance. Elements decking is backed by a 25-year limited warranty¹ and available in three attractive color options². Know Performance. Know Elements.™

Decking Features & Benefits

- Beautiful wood grain look
- Available in three natural colors²
- Low maintenance material saves time and money
- Coordinating skirting provides a professional finished look
- 25-year limited warranty¹ against rotting, splintering, splitting and termite damage
- Easy installation¹ with common tools and fasteners
- Environmentally friendly. Recycled plastic and wood fiber content
- Colors naturally weather to a lighter shade of the same color²

TAMKO® Railing Systems Add the Ultimate Finishing Touch

Our coordinating railing systems lend themselves to endless customization options and creativity. They're made of durable composite materials that are just as easy to care for as Elements® Decking.

- **Designer Railing System** is a premium railing line offering distinguished styling. It features an extruded hand rail, universal top and bottom rail and innovative oval balusters (patent pending). Available in 6' kits in certain colors. Select colors for custom applications available in linear feet. Injection molded post cap, post ring and extruded post sleeve give the system the finishing details.
- **TAM-RAIL™ Railing System** delivers superior strength with the patented "Triple Layer" design. Features post mount kit for application flexibility, multi-angle bracket kit, square or colonial balusters and prepackaged Straight and Stair rail kits for quick and easy installation. For more details visit www.tam-rail.com.

Handling

² Representation of these colors is as accurate as our printing will permit. As with any composite product, color variations will occur. View several full-length boards prior to final color selection and installation. Color of boards will usually weather to a lighter shade within the first 12 weeks of exposure to the environment.

Decking Profiles

Nominal Size	Actual Size
1"x6" x (16' or 20')	15/16" x 5 1/4"
Skirting (12')	1/2" x 11 15/16"

All Tolerances +/- 1/16"
